Opinion on the essential requirements

Article 3.1a) Product Health and Safety	N/A
Article 3.1.b) under: electromagnetic compatibility	N/A
Article 3.2 effective use of the radio spectrum	N/A

Manufacturer(s)	FUAN DA JIN LONG MOTOR CO.,LTD
-----------------	--------------------------------

System description

Frequency band(s)	N/A
Operating frequency/ Alignment range	N/A
Number of channels/ Bandwidth	N/A
Transmit power	N/A
Type of antenna	N/A
Mode of operation (simplex/duplex)	N/A
Duty cycle * (access protocol, if applicable)	N/A
Comments	N/A
EU Member States in which placing on the market is planned	EU Member States

Technical Construction File

Essential components of the technical construction file:

Test report(s)	SCC(10)-917-10-EMC
User manual	Incl.
Technical Documentation	N/A
Including:	N/A
Declarations:	N/A
Acc. to article 3.2 : Acc. to article 3.1b: Acc. to article 3.1a :	N/A

Obligations of the Certificate Holder

An opinion is valid at the time of issue and relates only to the situation at that time. It is the manufacturer's responsibility to seek an updated opinion if they believe that a change in design, de manufacture, requirements or any other matter calls in to question the validity of the opinion. In this sense, there is no "duration of validity" for a notified body opinion. It remains valid for so long as the circumstances relevant to its issue remain unchanged. If there is a change, then it is the responsibility of the manufacturer to determine the need for a new or updated opinion.

The Declaration of Conformity must be supplied with each product; it can be a separated leaflet or be ion printed in the user's manual or packaging.

Equipment, which at the time of placing on the market contains as an integral part an EMC component, which should not be removed by the user, should be marked according to the EMC Directive. In addition in its user manual it should comply with the LVD Directive and e.g.indicate geographic limitations of use.
